Dodd_Frank Act

Dear Sirs,

With the 15th title of the Dodd-Frank Acts the use of "Conflict Materials" should be prevented. With those materials the rebels of the Democratic Republic of the Congo finance themselves.

The relevant raw material tin, tantalum, wolfram and gold are mined in the a.m. mentioned area.

Our products are analyzed continuously and we are in contact with our suppliers concerning this matter.

We are also committed to ensure responsible procurement practices and we do not intend to violate the human rights in the Democratic Republic of the Congo.

Accordingly we will take all necessary measures to comply with the recent regulation.

We thank you for your confidence and look forward to continue our good cooperation.

Sincerely,

FISCHER Mess- und Regeltechnik GmbH

ppa. Frank Hempelmann
Purchasing Manager
